Mr Saxon Fletcher,
General Manager,
Metal Cutting Technology,
13 Holloway Drive,
Bayswater VIC 3153

Dear Sir,

We are Katnap's major local supplier of cutting tools for their machinery. They now have a wide and varied range of our products that facilitate flexibility and a quality level that produces quality components.

Katnap Machining machine a varied range of materials from die steels, stainless steel and of course your common materials such as mild steel through to aluminium. They have expertise in small batch quantities that can support repetition engineering. The manufacture of jig's and fixtures that require an engineer's creativity are also a skill that Katnap can offer prospective customers.

The proprietor, Pat has come to us for assistance in certain difficult projects and we were able to satisfy his requirements by working together and concentrating on the best possible product.

This agile company can support your needs with personal and engineering based solutions.

Yours sincerely,

Saxon

Mr Saxon Fletcher
